THE FIRST CHOICE IN TELECOMMUNICATIONS AND NETWORKS

# IT COOLING SOLUTIONS FOR DATA CENTERS

# Direct rack cooling (side cooler)

- Liquid cooling
- Total Heat Removal at Source
- Easy adaptation to any type of rack
- Closed system to prevent hot-cold air
- intervention at inside and from outside the rack
- High cooling capacity (upto 30 kW per rack)
- Easy installation/maintenance
- Managed cooling with integration availability to any control systems

# In row cooling (in a cold/hot aisle containment)

THE FIRST CHOICE IN TELECOMMUNICATIONS AND NETWORKS

- Liquid cooling
- Enhanced cooling capacity
- Easy installation / maintenance
- Manages cooling with integration availability to any control systems.

## Twist air cooling (Hot air removal)

- **Voltage /Phase/Frequency:** 230/1/50-60 V/ph/Hz
- **Fan air flow (free air):** 3000 m<sup>3</sup>/h
- **Current absorbed:** 1,1x3 A
- **Power absorbed:** 245x3 W
- **Working limits cabinet temperature**  
**Min/Max:** 10/50 °C
- **Side cabinet protection degree:** IP55
- **Noise level ca.:** 58dB
- **Duty cycle:** 100%
